

Excel With Copilot Assignment

Q1. Use Copilot to identify and summarize missing values in the dataset.

Completed. SS FYR

The screenshot shows an Excel spreadsheet with a sales data table. The table has columns for Order Priority, Order Date, Units Sold, Unit Price, and Unit Cost. The data is organized by date, with rows for each day from 1/1/2023 to 1/22/2023. The table is filtered to show only rows where the Order Date is 1/1/2023. The Copilot sidebar on the right shows the prompt: "Format missing values table in L column area". The sidebar also displays a summary of missing values: "I created a missing-values table in L1:O5 with the affected fields and counts for blanks, non-breaking spaces, and total missing-like values. It's also formatted as an Excel table for easier reading."

Field	Blank	Non-breaking space	Total missing-like
Region	0	10	10
Category	1	9	10
Units Sold	0	10	10
Unit Price	0	10	10

Q2. Use Copilot to fill missing values in the Region and Category columns

Completed. SS FYR

The screenshot shows the same Excel spreadsheet as before, but now the missing values in the Region and Category columns have been filled. The Copilot sidebar on the right shows the prompt: "consider non breaking space is a missing space and fill missing values in the Region and Category columns and live a visualisation update". The sidebar also displays a summary of missing values: "I'm filling missing-like entries in Region and Category using a safe placeholder, then I'll add a before/after visualization of the cleanup."

Field	Blank	Non-breaking space	Total missing-like
Region	0	0	0
Category	0	0	0
Units Sold	0	10	10
Unit Price	0	10	10

Excel With Copilot Assignment

Q3. Fill missing numeric values in the Units Sold and Unit Price columns

Completed. SS FYR

The screenshot shows an Excel spreadsheet with a table containing sales data. The columns are labeled F through J, representing various attributes like Region, Country, Category, Sales Channel, Order Priority, Order Date, Units Sold, Unit Price, and Unit Cost. The table contains data for rows 20 through 37. The 'Units Sold' and 'Unit Price' columns have several missing values. A GPT sidebar on the right shows the prompt used to fill these values.

GPT for Excel Word

Agent Bulk tools GPT functions

Filled the missing-like values in Units Sold and Unit Price, treating non-breaking spaces as blanks.

- Units Sold: filled 10 missing entries with 256
- Unit Price: filled 10 missing entries with 249.65

Q4. Create a new calculated column Total Revenue

Completed. SS FYR

The screenshot shows an Excel spreadsheet with a table containing sales data. The columns are labeled A through K, representing various attributes like Order ID, Region, Country, Category, Sales Channel, Order Priority, Order Date, Units Sold, Unit Price, Unit Cost, and Total Revenue. The table contains data for rows 1 through 18. The 'Total Revenue' column has been added and filled with calculated values. A GPT sidebar on the right shows the prompt used to create this column.

Excel With Copilot Assignment

Q5. Use Copilot to find the total price of Order ID = 'ORD0123'.

Completed. SS FYR

The screenshot shows the Microsoft Excel interface with a table of orders. The table has columns for Order ID, Region, Country, Category, Sales Channel, Order Priority, Order Date, Units Sold, Unit Price, Unit Cost, and Total Revenue. The Copilot chat window on the right shows a prompt to find the total price for Order ID 'ORD0123' and the response: 'The total price for ORD0123 is 15,849.30.'

Q6. Use Copilot to generate a summary chart of average profit by region.

Completed. SS FYR

The screenshot shows the Microsoft Excel interface with a bar chart titled 'Average Profit by Region'. The chart displays the average profit for five regions: East, North, South, Unknown, and West. The Copilot chat window on the right shows a prompt to create a summary chart of average profit by region and the response: 'Created a summary chart of average profit by region on Sheet1.'

Region	Average Profit
East	\$12,480.87
North	\$18,727.89
South	\$18,174.78
Unknown	\$12,855.63
West	\$12,855.63

Q7. Create a pivot table summarizing total sales by category and region.

Completed. SS FYR

Q8. Build a dashboard combining key KPIs and charts

Completed. SS FYR

Excel With Copilot Assignment

Q9. Use Copilot to generate a summary report.

Completed. SS FYR

The screenshot shows a Microsoft Excel spreadsheet titled "Sales Summary Report". The spreadsheet has columns A through K and rows 1 through 7. The content is as follows:

	A	B	C	D	E	F	G	H	I	J	K				
1	Sales Summary Report														
2										Region	Revenue				
3	Executive Summary									East	\$6,295,6				
4	This report summarizes sales performance across orders, regions, categories, and channels using the current workbook data.									North	\$5,246,0				
5														South	\$4,293,1
6									Key Metrics			Top Performers		Performance Notes	
7															

The sidebar on the right, titled "GPT for Excel Word", contains the following content:

- Agent** (selected), **Bulk tools**, **GPT functions**
- supporting breakdown tables for region, category, channel, and average profit
- The report is linked to your current workbook data with live formulas, so it updates as the source data changes.
